HISTORY

Launched in 2015, Healthy Markets Association is founded on the premise that informed and empowered investors are essential to healthy capital markets.

Over just a few years, HMA has grown to become a trusted adviser to our members and subscribers on market and regulatory developments. HMA has given our members and subscribers essential information to shape their businesses and have a voice in the policy debates that shape the capital markets.

HMA's work has been cited by regulators hundreds of times in proposals, rules, and orders. We are frequently asked to offer our opinions in Congressional testimony, regulatory panels, industry events, and the press.

OUR MEMBERS AND SUBSCRIBERS

Members

Our members drive our work. Our buy-side members include US and Canadian public pensions and advisers ranging from a few billion dollars in AUM to hundreds of billions of dollars in AUM. To assist our educational efforts, we have welcomed a diverse array of working group members, including leading brokers, data and technology providers, and execution venues.

Subscribers

For institutional investors, trading firms, and consultants looking to keep a finger on the pulse of securities regulatory developments, we offer exclusive weekly and monthly reports, as well as regular access to our team of experts.
